

Debary Public Library Association User Interface Plan

Mike Black
Project 2

Interactive Elements

- Hamburger mobile menu
Toggles visibility of drop-down menu
- Tabbed pages
Buttons that enable visitor to update page content without leaving the current page
- Accordion menu
A set of containers that can be expanded when clicked, revealing hidden content
- Weather API section
Button that makes an API call to a weather server and updates the screen with up-to-date information.

All of the elements will be clickable.

The API will be the Dark Sky API:
